

# DISTINCTIO

## *Author Instructions*

The journal accepts papers in English or German with a mandatory title and abstract in both languages with corresponding keywords. The manuscript should not exceed 10,000 words and should start with the manuscript title, followed by abstracts, the body of text and a list of references. All manuscripts should have a clear structure, whether using section headings and subheadings or some other means of distinction. If headings and subheadings are used, they should be marked clearly and consistently. Details about the author(s) should be omitted from the manuscript so it is ready for reviewing; author details should be filled in on the separate online form. Author details must include:

Full name(s) and surname(s) of all author(s);

Affiliations and email addresses of all authors. The author who submits a manuscript is considered the corresponding author, unless it is explicitly stated otherwise;

Orcid IDs need to be submitted for all authors.

## *Submission Procedure*

All manuscripts should be submitted via the journal's official online submission portal. All submitted manuscripts will first undergo internal evaluation by the editorial board in order to judge their suitability for the journal and compliance with the Author Instructions (above). If the initial decision of the editorial board is positive, the manuscript is sent for external review. After receiving two positive reviews, the editorial board decides about the publication of the manuscript (decides which category the manuscript is if the reviewers disagreed). If one review is positive and another negative, the journal will seek a third review. If the third review is positive, the editorial board decides about the publication of the manuscript. If the third review is negative, the manuscript is rejected. The journal aims to follow a double-blind peer review procedure. The estimated time for the initial decision is approximately two weeks, with two months for the external review if the manuscript gains initial acceptance.

## *Copyright policy*

The authors of the pertinent published materials (research papers, book reviews, obituaries) reserve copyright on all published materials. However, by agreeing to publish in *Distinctio*, authors transfer the rights for initial publication of the manuscript to the journal, in both print and electronic form. Due to the fact that *Distinctio* is published as an open access journal, all published texts (articles, book reviews etc.) can be freely used for non-commercial purposes under the CC BY-NC-ND license.

## *Archiving policy*

Both printed and electronic versions of full issues of the journal are archived in the Croatian National and University Library in Zagreb.

## *Fees*

The journal does not charge any processing or publication fees for any of the published materials. The journal is run by a non-profit publisher and financed through the support of the Ministry of Science and Education of Croatia and donations.
